

## ACCESSIBILITY

We endeavour to ensure that our business, premises, and product offerings are accessible to all, whether for customers, visitors, or staff.

Our carpark at the rear of the pub includes 'blue badge' spaces located alongside the step free access to the pub.

We have an easy access disabled toilet with step free and single level wheelchair access, and handrails.

The raised bar area has wheelchair access via a portable ramp. Our staff are fully trained in its use.

There are three steps between the lower bar / café and the upper bar areas. All steps have handrails.

Our external picnic bench area includes a wheelchair accessible table.

We keep a large magnifier and 'off the shelf' reading glasses, should they be required.

For families we have baby-changing facilities, supply highchairs, and are accessible for buggies. There are also free sanitary products, nappy bags, and tissues located in the toilets.

Our menu caters for customers with gluten-free, vegetarian, or vegan requirements. Our chefs can accommodate most dietary requirements on request.

Dog owners will enjoy a warm welcome in our bar, café and outside areas, with plentiful water and free dog biscuits for their pet ! To cater for customers with pet allergies, or who prefer a dog-free zone, we do not permit dogs in our restaurant area – assistance dogs are of course welcomed in all areas.

We are listed in Euan's Guide - the award-winning disabled access charity. [Click here for more information.](#)

We are also listed on AccessAble where a Detailed Access Guide for our pub can be found. Please click the logo for more information
